

Silent Valley Club RV Park is in a Moderate water Situation & at our current water level we are at a 300 max occupancy. Reservations will not be taken past 300 occupancy. Reservations must be made ahead of time (no more then 48 hours) to guarantee you can come. ONE OF OUR GROUNDS STAFF THAT HAS THEIR CDL IS CURRENTLY DRIVING A 4,000 GALLON WATER TANK TRUCK THAT SILENT VALLEY CLUB IS RENTING FROM C5 EQUIPMENT. HE IS FILLING AT PINE COVE AND PUTTING IN OUR TANK. SO YOU WILL SEE DAILY THAT OUR WATER TANK IS RISING. CURRENTLY AT 13' 9" AS OF 8/12/25 @ 8AM. THE WATER TRUCK CURRENTLY BROKE DOWN SO WE ARE WAITING ON A MECHANIC TO COME AND FIX IT. ONCE WE GET TO 16FT WE CAN LIFT ALL RESTRICTIONS. WE ARE ALSO CURRENTLY IN THE WORKS OF BEING CONNECTED TO HIGH VALLEYS WATER DISTRICT SO THAT WE WILL HAVE THAT AS AN OPTION TO PAY WATER IF WE NEED.

WE ALSO HAVE A WELL COMPANY WORKING ON GETTING OUR WELLS THAT HAVE NOT BEEN FUNCTIONING BACK UP AND RUNNING. WE HAVE SITES IN D THAT ARE TAGGED **DO NOT USE** BECAUSE THE COMPANY WILL BE USING HIGH PRESSURE TO BLOW OUT THAT WELL AND POSSIBLE DEBRIS AND ROCKS COULD FLY.

THE LAUNDRY IS TEMPORARILY CLOSED AS IS COMFORT STATIONS 5 & 7.. TO HELP CONSERVE WATER. ALL COMFORT STATIONS ARE CLOSED FROM 11PM-6AM DUE TO VANDALISM. ONLY THE ADULT CENTER, VILLAGE CENTER, & FAMILY CENTER IS AVAILABLE DURING THAT TIME SORRY FOR THE INCONVENIENCE.

THINGS ARE LOOKING UP AND WE CAN'T WAIT TO ANNOUNCE WE ARE BACK TO NORMAL!!!

BE SURE TO WATCH THE WEEKLY PODCASTS ON THE SILENT VALLEY RV RESORT FACEBOOK PAGE FOR MORE UPDATES

Water Conservation Guidelines for Campers

To help protect and preserve our park's water resources, we kindly ask all campers to follow these water-saving practices during their stay:

Fill fresh water holding tanks before arriving at the park to reduce onsite water usage.

Limit shower times and consider turning off the water while lathering or shampooing.

Turn off faucets when not actively in use, such as while brushing teeth or shaving.

Use a basin when washing dishes instead of letting the water run continuously.

Use biodegradable, water-efficient soaps and detergents whenever possible.

Install water-saving attachments, such as low-flow showerheads or faucet aerators, in your RV.

Check your RV's plumbing and fittings before and during your stay to ensure everything is functioning efficiently. WE ARE WORKING ON WAYS WE CAN GAIN WATER & RETAIN. THANK YOU FOR YOUR UNDERSTANDING AND EFFORTS TO HELP
